ABOUT APEXTURBO

ApexTurbo revolutionized the performance turbocharger world with the introduction of their patented Dual Apex Wheel™ Technology. The innovative wheel design along with other critical component advancements has proven to maximize horsepower and boost turbochargers to an all-new level of performance.

Since its launch, ApexTurbo has provided the most powerful turbochargers to competitive motorsports enthusiasts around the world. Located in Southeastern Michigan, just minutes from the heart of the Motor City, ApexTurbo understands the importance of air intake management and how an expertly designed turbo can optimize pressure differentials and maximize horsepower. Born from the truck and tractor pulling industry, ApexTurbo, is no stranger to extreme boost applications.

ApexTurbo is a revolutionary company in the performance turbocharger world, providing powerful turbochargers globally. Their products, like the APX 6470, are not just built, but built to win. For more information, contact info@apexturbo.com or call 734.777.1380.
